PROFESSIONAL SUMMARY

Senior Interior Designer with nearly ten years of experience shaping hospitality, workplace, restaurant, retail, healthcare, and experiential interiors. Skilled in concept development, materiality, technical documentation, and construction coordination. Strong technical foundation with experience enhancing workflows and coordinating multidisciplinary teams to deliver clear, well-executed design solutions.

EDUCATION

PHILADELPHIA UNIVERSITY | 2012 - 2016
B.S. IN INTERIOR DESIGN

SKILLS & ABILITIES

CONCEPT DEVELOPMENT
MATERIALITY AND FINISH CURATION
ADVANCED 3D VISUALIZATION
SKETCHING AND HAND RENDERING
GRAPHIC STORYTELLING
BIM AND REVIT WORKFLOW DEVELOPMENT
AUTOCAD DOCUMENTATION
TECHNICAL DETAILING
CONSTRUCTION COORDINATION
FF&E RESEARCH
CLIENT RELATIONS
MULTIDISCIPLINARY COLLABORATION
VENDOR AND CONSULTANT COORDINATION

SOFTWARE

REVIT
AUTODESK CONSTRUCTION CLOUD
AUTOCAD
ENSCAPE
SKETCHUP
ADOBE CREATIVE SUITE
MS OFFICE SUITE
BLUEBEAM REVU STUDIO

ACHIEVEMENTS

1ST PLACE IIDA DESIGN COMPETITION 2016
MEYER DESIGN EXCELLENCE AWARD 2016

BISHOP DESIGN SENIOR INTERIOR DESIGNER

05.2025 – PRESENT

- Lead design direction for hospitality, restaurant, luxury retail, and experiential interiors, shaping concept development, spatial layouts, and materiality.
- Develop cohesive design narratives, mood boards, and storytelling-driven presentation decks for client and internal reviews.
- Produce AutoCAD documentation for schematic and design development phases, including plans, elevations, details, and RCPs that communicate design intent.
- Coordinate with architects, lighting designers, engineers, and contractors to resolve design questions and maintain alignment across all project phases.
- Curate finish palettes, FF&E selections, and custom interior elements that reinforce project identity and support visual presentations.
- Present design progress to clients, incorporating feedback into refined solutions and updated design packages.
- Manage fabricators and millwork vendors to coordinate custom interior elements.
- Oversee construction coordination efforts by meeting on site with the GC team, reviewing shop drawings, responding to RFIs, and clarifying technical details to ensure the design intent is executed accurately.
- Collaborate with senior leadership to refine design concepts, ensure consistency across deliverables, and meet project goals.
- Direct value-engineering reviews by refining materials, finishes, and details while preserving the core design narrative.

IA INTERIOR ARCHITECTS JOB CAPTAIN / BIM MANAGER / DESIGNER

12.2021 – 04.2025

- Directed the design of corporate headquarters and workplace interiors through concept development, programming, space planning, and schematic design.
- Created design presentations, diagrams, and 3D visualizations that communicated spatial narratives and project strategies for internal and client-facing reviews.
- Produced detailed SD-CD drawing sets in Revit, coordinating closely with project managers, architects, engineers, and consultants to resolve technical issues.
- Advanced design development by refining technical details, evaluating constructability, and aligning solutions with code requirements and client standards.
- Participated in construction coordination, responding to RFIs, reviewing shop drawings, and documenting site progress to support informed design decisions.
- Developed and maintained Revit templates, standards, and workflows that improved drawing accuracy, model organization, and team efficiency.
- Assisted with FF&E research and finish selections, aligning materiality with project goals and larger design narratives.
- Mentored junior and mid-level designers, offering guidance on documentation, modeling, and project coordination.
- Managed timelines and deliverables for multiple concurrent projects, ensuring accuracy and consistency across all phases.
- Partnered with senior design leadership to align conceptual direction with technical feasibility and project objectives.

DCC DESIGN GROUP PROJECT DESIGNER II / BIM MANAGER

07.2019 – 12.2021

- Managed multiple commercial interior projects from concept through documentation, developing space plans, design presentations, material palettes, and FF&E selections to support design intent.
- Produced detailed AutoCAD and Revit drawing sets for schematic design, design development, and construction documentation, ensuring alignment with project requirements and industry standards.
- Coordinated with architects, engineers, contractors, and specialty consultants to resolve design and technical issues, maintaining clear communication throughout each project phase.
- Supported construction administration through field observations, documentation reviews, and responses to RFIs, ensuring that design intent was accurately executed on-site.
- Developed and maintained BIM standards, templates, and workflows, improving documentation consistency and team efficiency across the studio.
- Mentored junior designers, offering guidance on documentation, modeling, and overall project coordination.

EIMER DESIGN INTERIOR DESIGNER

06.2016 – 07.2019

- Supported design and documentation for workplace and healthcare interiors from concept through construction.
- Produced space plans, design presentations, and detailed documentation packages.
- Coordinated with consultants and assisted with construction administration tasks.
